**CHARGRILL
CHARLIE'S**
GOURMET FOOD AT ITS BEST

WE MAY COOK'EM BUT WE DON'T MISTREAT'EM

Our chickens are NOT fed or administered hormones in any way. Tests by the Commonwealth Government confirm this on a regular basis.

Our chickens are grain fed. A balanced diet consisting of vitamins, minerals, soyabean meal and a variety of grains including wheat, barley, sorghum and oats form the entire content of the chicken's feed.

Our chickens are housed in large open sheds and are not kept in cages. These sheds protect the birds from the elements in the same way a chicken house would be provided by any farmer. The birds can roam freely and eat and drink as they please.

Our chickens are low in fat, high in protein and a good source of iron. Chargrill Charlie's chicken is the healthy choice.
